Mahta Ebrahimi

Front-end Developer - UX/UI Designer

About Me

Front-End Developer and UI/UX Designer with experience building responsive web applications using JavaScript, React. Skilled in creating reusable component libraries (Tailwind CSS, Material UI) and Optimizing processes through CI/CD pipelines. Collaborated with teams in Agile/Scrum environments to build fast, accessible, and SEO-friendly interfaces from design mockups.
I bring a strong focus on UI/UX that meets real user needs and am constantly exploring new tools and patterns to stay at the front of front-end best practices.

Skills

Frontend Development: HTML, CSS, JavaScript, ReactJs, VueJs, Material UI, Tailwind Css, WordPress, Git, Agile

UI/UX Design tools & techniques: Figma, Illustrator, Photoshop, Wireframing, Prototyping, User Personas, Usability Testing

Experience

Freelance Frontend Developer- UI/UX Designer
Remote
- 2023-Present
  - Developed a mobile-first trainee web application with a strong focus on UX, tested with users to validate design decisions and improve usability.
  - Designed Newsbox, a content app built with React and Tailwind clean design and fully responsive.
  - Built a React Fruitshop app featuring simple navigation and user-friendly design.
  - Designed a React app that includes Google Search and Google Translate features.
  - Created WordPress portfolios to reflect each client's unique style.
  - Collaborated on a Vue.js-based Real estate web application, with a focus on performance optimization.
