Summary:

Front-end Developer and UI/UX Designer skilled in React, Tailwind CSS, and Figma, with experience turning wireframes into responsive, user-friendly interfaces. Strong focus on design systems, accessibility, and performance optimization. Motivated to apply these skills in agile, cross-functional teams and contribute to innovative digital solutions.

Work Experience:

Frontend Developer / UI-UX Designer

2023–Present

- Designed and developed my own responsive portfolio site from the ground up, applying Figma for wireframes, React for implementation, and Tailwind CSS for styling to showcase both technical and design skills.
- Built a portfolio website for a client (visual effects artist) using WordPress, demonstrating proficiency in CMS customization.
- Proposed redesigned websites for [Novosal.dk](#) (Desktop) and [Korporalskroen](#) (mobile) apps.

Intern, Glienke Design

2024

- Edited and customized the website applying troubleshooting skills to ensure functionality, which led to a 12% increase in views.

Other Experience

- Calligraphy Artworks
- Consultant in Environmental Engineering
